

APOTHECARY WALL DISPLAY

Design	Frama
Year	2016
Typology	Apothecary Wall Holder
Collection	St. Paul's Apothecary
Origin	Denmark
Material	Powder coated steel

Product	Item No.	EAN code
Apothecary Wall Display 500	11040	5712828110421
Apothecary Wall Display 375	11041	5712828110407

MAINTENANCE OF METALS

Some of the metals in the Frama collection are left untreated to allow for a natural patina to develop over time. See below to keep these beautiful signs of aging, or polish them away. All collection pieces are for indoor use.

CLEANING & POLISHING BRASS & COPPER:

Brass: Wash the brass with soapy water. To get rid of dirt or oil, mix a mild detergent with warm water. Dip a soft cloth into the soapy water, and wipe the piece down with the cloth. To polish brass, apply brass polish to a cloth, and rub it into the brass. Then use a clean, dry cloth while rubbing the brass to create shine.

Copper: Squeeze a lemon and sprinkle salt over the copper, and rub to remove any tarnishing. Rinse the copper, and dry with a soft, dry cloth.

WAXING UNTREATED STEEL:

Since wax is only a coating and doesn't actually bind with steel, it must be periodically reapplied. As long as the piece is indoors, the wax will typically last at least a few years.

1. Use mineral spirits to clean the steel before application.
2. Using warm, clear wax, rub a thin layer over the steel with a soft cloth.
3. Using a clean cloth, buff out all of this dull wax with circular motions.
4. When the wax has been sufficiently buffed, the dullness will be gone, replaced with a slight shine. The finished wax should feel smooth and slippery to the touch.

CLEANING POWDER COATED STEEL/ALUMINUM:

To clean powder coated furniture, carefully remove any loose deposits with a wet sponge. Use a soft brush (non abrasive) or cloth, and a mild household detergent solution to remove dust, salt and other deposits. Rinse off with clean fresh water. Then use a clean, soft cloth to dry the piece.
